Why we collect and use this information

The personal data we collect is essential for the school to fulfil official functions and meet legal requirements and we use it to:

- a) support learning,
- b) monitor and report on student attainment progress,
- c) provide appropriate pastoral care,
- d) assess the quality of what we do,
- e) keep children safe e.g., food allergies, emergency contact details, CCTV,
- f) meet statutory duties placed on us by the Department for Education, UK Health Security Agency etc.
- g) celebrate or promote school, for scientific interest, or to record our own school history.
- h) to control access to services e.g., to biometric controlled catering services.

Under UK GDPR, the lawful bases we rely on for processing personal information about students are:

- to perform a public task i.e., to provide education (mainly reasons a, b, c, and d above).
- to protect vital interests (and sometimes carry out a contract too) e.g., to provide **safe** meals, trips, transport, uniform, professional photos, childcare (mainly reasons a, and e above)..
- to comply with the law (mainly reasons b, and f above) e.g., recording attendance, publishing results, recording the census (see Sharing with the DfE below), data sharing with child protection partners like social care, the NHS, and the Local Authority etc. (see sharing with the DfE below for legislation).
- having consent (mainly reason g above, and to process ethnicity data) e.g., use images or names publicly.

When we process special category data like medical information or biometrics, we need to have one lawful basis from the list above *and* one of the following list:

- to prevent medical problems, assess needs, and provide services (mainly reasons e, and f above) e.g., Education Health & Care Plans (EHCP), records of medicines administration.
- to improve public health e.g., report notifiable diseases to local and national government departments;
- to make or defend legal claims e.g., some special educational needs and all accident records.
- having consent (mainly reason h above) e.g., to use biometric data to access catering services.

Collecting student data

We collect relevant student information via registration forms at the start of each academic year or a secure file sent to us when a child joins us from another school.

Most of the student information we ask for is required by law or necessary so we can provide a good education and some of it is voluntary. To comply with UK GDPR, if you have a choice about providing information, we will tell you when we ask for it. We will also tell you what to do if you do not want to share this information with us.

Storing student data

We hold student data securely in line with the Information and Records Management Society (IRMS) [Records Management Toolkit for Schools](#). This personal data is retained for a wide range of time periods from days after a successful trip for the consent form to many years after a student has left us for an accident report. For more information about how long we keep some information for and why (data retention), and how we keep the data safe.

Who we share student information with and why

We do not share information about our students with anyone without consent unless the law and our policies allow us to do so. The laws listed in this notice that require us to collect information also require us to share it. Data is transferred securely by hand delivery or registered post, via a government data transfer system like School to School, via a contractor's secure data sharing system like our online school trips safety system, and sometimes in other secure ways.

We routinely share student information with:

- Schools and other education providers students go to after leaving us to support their continuing education.
- Child development and protection partners like our local Authority Children's Services, Public Health, Inclusion & Social Care etc. to check attendance, monitor, and protect children; the NHS for medical referrals & support; private companies offering counselling and other family or support services.
- The DfE to help decide our school funding, monitor attainment & benchmark it nationally, compile league tables, develop national education policy and monitor it.

- Our Local Authority to ensure they can conduct their statutory duties such as under the [Schools Admission Code](#), including conducting Fair Access Panels, and careers guidance legislation.
- Medical services like therapists, the school nurse, or the NHS for things like screening, vaccinations, health/ eye/ dental checks, Education Health, and Care Plan (EHCP) provision etc. and UK Health Security Agency about certain contagious infections our students come into contact with.
- Government departments like UK Health Security Agency, local authority public health, and District Council Environmental Health Departments to comply with the law and support public health action;
- Voluntary and charitable organisations (with your permission only), such as Barnardo's, our local Foodbank and similar organisations who can offer families practical help and support.

Sharing with Youth Support Services

Students aged 13 +

Once our students reach the age of 13, we pass student information to our local authority and / or provider of youth support services as they have responsibilities in relation to the education or training of 13-19 year olds under section [507B of the Education Act 1996](#).

This enables them to provide youth support services and careers advisers.

The information shared is limited to the child's name, address, and date of birth and the name and address of a parent or guardian. Consent to share this data is not required from a parent or guardian, but we do need parental consent to share any other information relevant to the provision of youth support services.

For details of the information that we share with them please visit:

<https://careerconnect.org.uk/privacy-policy/>

Students aged 16+

We will also share certain information about students aged 16+ with our local authority and / or provider of youth support services because they also have responsibilities in relation to the education or training of 13–19-year-olds under the same section 507B of the Education Act 1996.

This enables them to provide services as follows:

- post-16 education and training providers
- youth support services
- careers advisers

The information shared is limited to the student's name, address, and date of birth and the name and address of a parent or guardian. Consent to share this data is not required from a parent or guardian, but we do need a student's consent to share any other information about them that is relevant to the provision of youth support services.

For details of the information that we share with them please visit:

<https://careerconnect.org.uk/privacy-policy/>

Sharing with the Department for Education (DfE)

How Government uses your data

The student data that we lawfully share with the DfE through data collections:

- underpins school funding, which is calculated based upon the numbers of children and their characteristics in each school.
- informs 'short term' education policy monitoring and school accountability and intervention (for example, school GCSE results or Student Progress measures).

- supports ‘longer term’ research and monitoring of educational policy (for example how certain subject choices go on to affect education or earnings beyond school)

Data collection requirements

To find out more about the data collection requirements placed on us by the DfE (for example; via the school census) go to www.gov.uk/education/data-collection-and-censuses-for-schools.

The National Student Database (NPD)

Much of the data about students in England is held in the National Student Database (NPD).

The NPD is owned and managed by the DfE and contains information about students in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department.

It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

To find out more about the NPD, go to <https://www.gov.uk/government/publications/national-student-database-mpd-privacy-notice/national-student-database-mpd-privacy-notice>.

Sharing by the DfE

The law allows the DfE to share students’ personal data with certain third parties, including:

- schools and local authorities
- researchers
- organisations connected with promoting the education or wellbeing of children in England
- other government departments and agencies
- organisations fighting or identifying crime

For more information about the DfE’s NPD data sharing process, please visit: www.gov.uk/data-protection-how-we-collect-and-share-research-data

Organisations fighting or identifying crime may use their legal powers to contact DfE to request access to individual level information relevant to detecting that crime. Whilst numbers fluctuate slightly over time, DfE typically supplies data on around 600 students per year to the Home Office and roughly 1 per year to the Police.

For information about which organisations the DfE has provided student information, (and for which project) or to access a monthly breakdown of data share volumes with Home Office and the Police please visit the following website: <https://www.gov.uk/government/publications/dfE-external-data-shares>

How to find out what personal information the DfE holds about you

Under the terms of the Data Protection Act 2018, you are entitled to ask the DfE:

- if they are processing your personal data
- for a description of the data they hold about you
- the reasons they’re holding it and any recipient it may be disclosed to
- for a copy of your personal data and any details of its source

If you want to see the personal data held about you by the DfE, please make a ‘subject access request’ to them. Find out how in the DfE’s personal information charter published at:
